

A lean & transparent SUPPLY CHAIN

for the sourcing of non-core items such as Retail Fixtures and Point Of Purchase (POP) equipment

We are committed to and are passionate about 2 fundamental principles

We take out everything you don't need ... so you only pay for what delivers real value

We are honest about the ingredients but more importantly we know how to assemble and deliver them to give you the best possible result

LEANPIE VALUE DRIVERS - HOW WE DELIVER VALUE

Value engineering
Technology-enabled
Best sources of supply
Streamlined processes
Highly skilled engineers

Benefits
Optimal pricing
Reduced waste
Enhanced quality
Reduced cycle times

We have set out to create a **manufacturing supply chain** for retail fixtures and POP materials that will set the standard for everyone else to follow. We will achieve this by applying **best practice** management principles combined with a very **transparent** approach to how we do business.

Carlos Kassner, CEO

Competitive pricing

Quality Assurance

On-time delivery

Transparent terms

Quality Control

Reduced cycle time

LEANPIE SERVICE OFFERING

(Optional)

TECHNICAL DRAWINGS
Production efficiencies
Waste reduction

MANUFACTURING PROJECT MGT
Full platform administration
Step by step process management

SHIPPING
Fastest vessels available
Price forecast and historic

PROTOTYPING
Structural tests
Packaging trial

QUALITY CONTROL
4 in-depth QC reports
Full production control

WAREHOUSING
Localised warehouses
Online stock management

PRECISION JIGS & TOOLS
Fast production tools
Stored for future orders

MANUFACTURING
Optimised set-up and processes
Streamlined production line

DISTRIBUTION
